CONCRETE PAVING

10:43 AM **Tre LaBossiere**
[Lat/Long: 44.794591,-106.956729]

Arrived on site at 10:40. Northern Underground was on site with two laborers. NU was in the process of placing and compacting the road base for the curb and the parking lot. There were no issues with their process or placing and compacting the road base. Stonemill was on site setting up their forms for the concrete curb that will be poured on Wednesday.

01:50 PM **Tre LaBossiere**
[Lat/Long: 44.794701,-106.957055]

Arrived on site at 1:50. Arrived on site at 10:40. Northern Underground was on site with two laborers. NU was in the process of placing and compacting road base for the curb and the parking lot. There were no issues with their process or placing and compacting the road base. NU folded over the geotextile fabric so they can overlay the fabrics to the required distance.

CONCRETE PAVING

10:46 AM **Tre LaBossiere**
[Lat/Long: 44.794592,-106.956736]

Arrived on site at 9:55. Stonemill was on site placing curb. They have placed about 100' of curb and gutter. The curb and gutter appeared to be laid according to the plan slopes. Todd Reddinger asked me if they could tool their joints since they would need to cover the concrete blankets. I told Todd that would be fine but to make sure that they joint it deep enough to control the cracking of the concrete. Todd told me they would make sure the joint was deep enough to crack.

Stonemill had plenty of concrete blankets on site to place over the curb and were waiting to finish jointing/pouring to place the blankets.
